

IBS/Crohn's Disease/Colitis Wellness Protocol (Item #7137) A Healthy and Effective Wellness Management Protocol

Products included in this Wellness Protocol are:

- ① InflammEx (6247) The Inflammation Elimination Opti-Blend
- ① CoQ10 (5010) Antioxidant Supplement
- ① Bifidophilus (1011) Natural, Plant Derived Probiotics
- ① EB Digestive (1005) High Potency Digestive Enzymes

Protocol Overview

This Wellness Protocol brings together the traditional herbs, vitamins and minerals of our individual formulations to reduce the symptoms of IBS, Chron's Disease and Colitis. It is important to provide your body with adequate methods for digestion, as well as antioxidants to help heal the digestive tract. Inflammation in the digestive tract is a main cause of these illnesses; an herbal support system, in place, will aide in reducing this inflammation.

InflammEX aids in soothing the nerve sheaths, muscles, tendons, ligament tissues, bowel tissues and stomach tissues. This calming effect helps to reduce symptoms. InflammEx also increases blood circulation to the organs most affected by the disease.

Co-Q10 is a powerful antioxidant which helps to deliver oxygen to the bowel.

Bifidophilus is a combination of Acidophilus and Bifidus which promotes intestinal and colon health and further aids the body with the digestive process.

EB Digestive is a high potency enzyme with the inclusion of pro-biotics. This formula will aid the body in digestion and reduce inflammation in the bowel.

Note: Additional information for the above products is included in the subsequent datasheets.
